

# Reference Sire

## Pistol Packin Badger

Pistol Packin Badger foals have good confirmation, muscling, have good bone and show a lot of athletic ability. Pistol had sired one foal crop (5 foals) when we purchased him, these foals are being started now. They are big stoppers, trainable and very athletic.

We ask you to look his pedigree over and see for yourself how this pedigree is loaded with world champions. His sire is Smart Little Pistol the sire of the NCHA Horse of the Year and Triple Crown Champion Chiquita Pistol. His grandsire on the bottom is Peppy San Badger. Along with all that has been said about this great sire, this year he was ranked No. 1 by Western Horseman as the top bloodlines used in today's working ranch remudas. His great grandsire on top, Doc Bar was named the No. 2 bloodline in today's ranch remudas.

We think Pistol will make an invaluable contribution to Lyons Den Quarter Horses now and in the years to come.
